BOX CONTENTS

- SkinVibe Libra AirLoom Hair Dryer
- Three magnetic styling nozzles
- User manual
- Bag for the device
- Thank you card

SAFETY INSTRUCTIONS

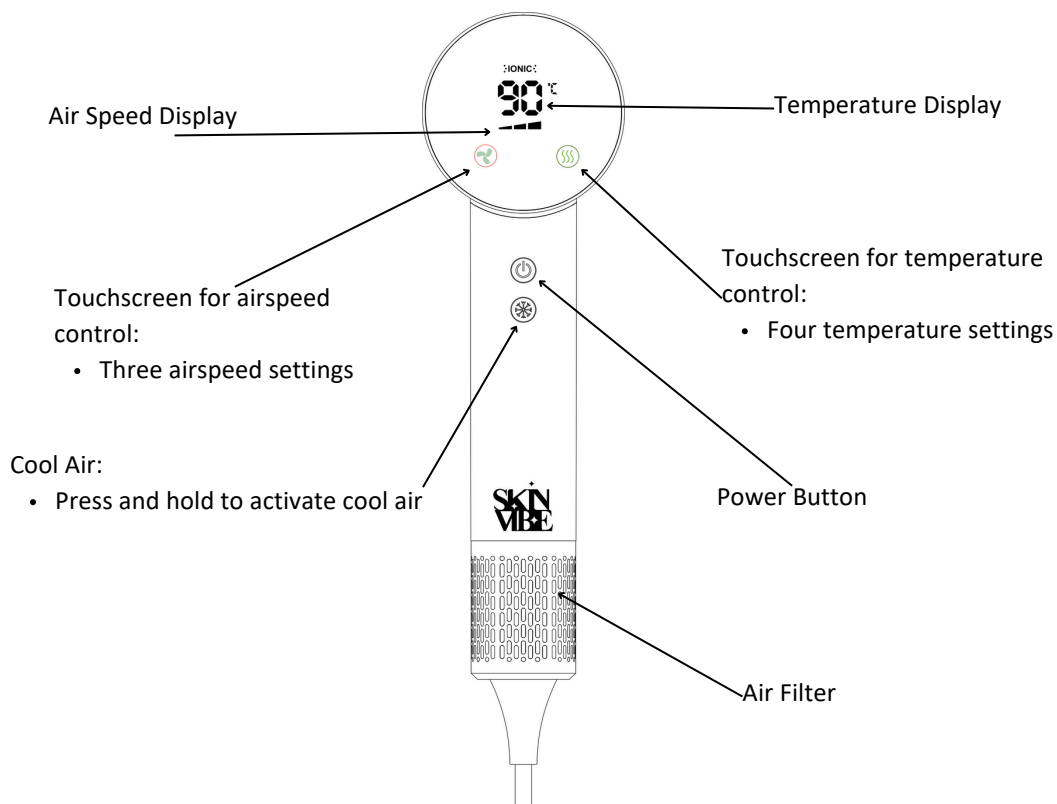

- Do not leave the hair dryer plugged into the socket unattended.
- Do not wrap the cord around the product body.
- Do not put your hand into the air vent – there is a risk of burns.
- Do not use the hair dryer if the air vent is blocked. It can cause a fire.
- Be careful not to let your hair get caught in the air vent.
- When cleaning the air filter, make sure the dryer is turned off, unplug the cord, and then clean the device.
- Do not use the hair dryer with wet hands or on wet hair. This may cause electric shock.
- We recommend storing the dryer in a dry, indoor place away from moisture.
- Do not use the dryer for purposes other than intended.
- Be cautious of the risk of electric shock and fire; avoid using or storing the device in places prone to falling.
- If the product is damaged or not functioning properly, do not disassemble or attempt to repair it yourself.
- Avoid placing the product in areas exposed to direct sunlight.
- Keep the device out of reach of children unless under supervision or according to the caregiver's instructions to ensure safe use.
- Do not use the product near bathtubs, showers, sinks, or other containers filled with water.

NOZZLE USE

Your hair dryer is equipped with magnetic styling nozzles that can be easily attached and rotated in any direction to precisely direct the airflow.

To remove the nozzles, simply grip the cool edges.

PRODUCT DESCRIPTION

DEVICE OPERATION

1. Press the power button to turn on the device, and the dryer screen will activate.
2. Gently touch the airspeed touchscreen to switch between low/medium/high speed. The selected airspeed will be displayed on the screen.
3. Gently touch the temperature touchscreen to select the desired temperature. Four temperature options are available: cool/50°C/70°C/90°C. The selected temperature will be displayed on the screen.
4. During use, hold down the cool air function to cool and style your hair.

PRODUCT FEATURES

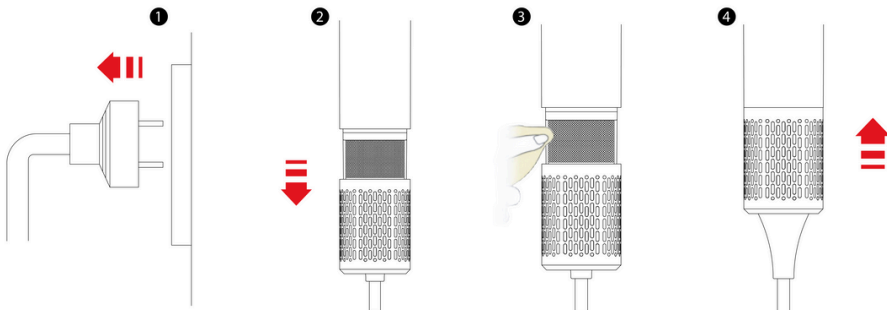

1. **High-performance brushless motor:** The SkinVibe Libra AirLoom is equipped with a high-performance brushless motor with a speed of 110,000 RPM, delivering powerful airflow for fast hair drying.
2. **Intelligent temperature control system:** The SkinVibe Libra AirLoom features an intelligent temperature control system that precisely regulates the airflow temperature to prevent hair damage from overheating.
3. **Alternating cool and warm air function:** Press and hold the cool air button to activate the cool air function with a single press.
4. **Hair care technology with negative ions:** The built-in negative ion generator emits negative ions, which neutralize positive charges in the hair, reducing static build-up and helping to protect and smooth the hair.
5. **Noise reduction:** Thanks to the optimized motor, high-frequency noise is modulated beyond the audible range of the human ear. Further noise reduction is achieved through dynamic motor balancing and additional soundproofing materials, ensuring an exceptional user experience.

AIR FILTER CLEANING

We recommend regularly cleaning the air filter to remove accumulated dust, ensuring proper operation of the device.

1. Turn off the hair dryer and unplug it from the power source.
2. Gently pull the filter downward to remove it.
3. Wipe off the dust with a soft cloth, tissue, brush, or dry cloth.
4. Insert the filter back upward.

Do not wash with water. This may cause device malfunction.

TROUBLESHOOTING GUIDE

Common Issues	Solutions
Failure to Power On	1. Check if the power plug is securely connected. Reconnect if necessary. 2. If the issue persists, contact the service center for repairs.
Flashing Alarm Light	1. Check if there's any blockage in the air inlet or outlet. 2. Once confirmed, restart the device. 3. If the issue continues, contact for service.
Red Glow in Internal Coil	This is likely due to an overheating issue. Turn off the device, allow it to cool, and restart. If it happens again, contact for service.
Temperature Indicator Not Lit	A damaged internal board may be the issue. Replacement must be performed by a service center.
Non-functional Buttons	Button malfunction. Replacement by a service center is required.
Overheating of Power Cord/Plug	1. The power cord may be damaged. 2. For safety, have it replaced by a designated service center.
Smell of Burning During Use	There may be internal component damage. Turn off the device immediately and contact the service center for repairs.

MAINTENANCE AND CARE

1. Ensure the device is turned off and unplugged from the power source before cleaning.
2. Avoid pressing or rubbing the air vent with sharp objects to prevent damage to the product.
3. Do not use alcohol, nail polish remover, or detergents to clean the product, as they may cause malfunction, damage, or discoloration.
4. If the product is used by children aged 8 and above, individuals with physical or mental limitations, or those lacking experience and knowledge, proper supervision or instruction should be provided to ensure they are aware of potential risks and safe usage of electrical devices.

TECHNICAL SPECIFICATIONS

- Product model: SV-002BK, SV-002WH
- Rated voltage: 230V ~ 50-60Hz
- Cable length: 2.7m
- Power consumption: 1500W
- Display: LCD
- Motor speed: 110,000 rpm

Made in PRC

Keep this manual for future reference.

WARRANTY

The warrantor is: ITRG-ZIĘBA-MAGIERA-STYLIŃSKI SPÓŁKA JAWNA, VAT NO: PL9452174051, Christo Botewa 6B/B4, 30-798 Cracow, Poland.

The warranty covers the product: SkinVibe Libra AirLoom Hair Dryer.

Congratulations on your purchase.

This product is covered by a 24-month warranty from the date of purchase. Warranty service is provided based on proof of purchase (receipt or VAT invoice).

In the event of a defect, the Buyer should contact the Authorized Service Center at the following address: Christo Botewa 6B/B4, 30-798 Cracow, Poland. You can reach us through the following contact options:

- By email:
 - handel@itrg.pl
 - RMA@itrg.pl

The Warrantor collects the product from the Buyer at its own cost. Repair costs or product replacement costs, including shipping, labor, and materials, are covered by the Warrantor.

In the case of a justified claim, the Warrantor commits to repairing or replacing the faulty product free of charge within 30 days of receiving the complaint. If the Warrantor fails to respond to the claim within this period, the Buyer has the right to request a product replacement or refund.

The warranty does not cover risks related to damage or wear to the product during shipment to the Authorized Service Center unless this transport is organized by the Warrantor.

The warranty does not cover:

- a) normal wear and tear;
- b) periodic technical inspections;
- c) damage and failures caused by improper or non-compliant use with the user manual, or handling of the Product in a manner inconsistent with normal applications;
- d) damage resulting from use of the Product contrary to its intended purpose, including:
 - physical, aesthetic, or surface damage caused by improper use or modifications;
 - improper installation or use of the Product not in accordance with the instructions;
 - lack of servicing in accordance with the manufacturer's recommendations;
 - installation not compliant with the user manual and applicable safety standards;
 - use of the Product with non-recommended accessories or peripheral devices;
 - repairs carried out by unauthorized persons;
 - modifications of the Product without the consent of the importer or Authorized Service Center, such as:
 - increasing the parameters of the Product beyond the values specified in the manual;

- adapting the Product to local technical standards in countries other than those for which it was designed;
- negligence.

e) accidents, fire, contact with liquids or moisture, chemicals and other substances, flooding, vibrations, excessive heat, inadequate ventilation, connection to excessive or incorrect voltage, radiation, electrical discharges including lightning, as well as the action of any external forces and impacts.

The warranty applies within the territory of the European Union.

If the product does not conform to the sales contract, the Buyer is entitled to rights under applicable consumer protection laws in addition to the rights granted under this warranty.

CERTIFICATES

Environmental Protection Instructions

Note: This device is marked in accordance with the European Directive 2002/96/EC and the Polish Act on Waste Electrical and Electronic Equipment with the symbol of a crossed-out waste container.

This marking indicates that this equipment, after its period of use, cannot be disposed of together with other household waste.

Warning: do not dispose of this equipment with municipal waste!!!

The product must be disposed of through selective collection at designated collection points.

Proper handling of waste electrical and electronic equipment helps to avoid harmful effects on human health and the environment due to the presence of hazardous substances and improper storage and processing of such equipment.

Child Safety Warning

Note: This product is not intended for children under 3 years of age.

The crossed-out baby face symbol indicates that the device may pose a choking hazard or other risk if used by small children.

Keep out of reach of children.

Water and Electrical Device Warning

Note: This is an electrical device – do not immerse it in water or use it near liquids (e.g., during bathing).

The crossed-out bathtub symbol indicates that the device must not be used in the bath, under the shower, or near any water-filled container.

Use extra caution when operating in bathrooms.
